Art Unit: 1614

Claims 1, 2, 7, 10, 15, 16, 18 and 23-37 are presented for examination.

Applicants' amendment, terminal disclaimer and response filed June 4, 2007 have been received and entered.

Accordingly, the rejection made under obviousness-type double patenting as set forth in the previous Office action dated March 29, 2007 at pages 2-3 is hereby withdrawn because the applicants submitted a terminal disclaimer.

Accordingly, the rejection made under 35 USC 112, second paragraph as set forth in the previous Office action dated March 29, 2007 at page 4 is hereby withdrawn because the applicants amended claims 1 and 2 by deleting the phrases "including" and "includes".

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1, 2, 7, 10, 15, 16, 18 and 23-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gray (3,772,203) of PTO-1449 or BO in view of Monson et al. (3,541,581) of PTO-1449 or BW, all of record, for reasons of record as set forth in the previous Office action dated March 29, 2007 at pages 4-6 as applied to claims 1-22.

Applicants' remarks regarding the prior art does not teach the two component shave product in which both components individually constitute a shave gel composition are not persuasive since the prior art does teaches all the claimed elements known in the prior art and one skilled in the art could have combined the elements as claimed by known methods with no change in their respective functions, and the combination would have yielded predictable results to one of ordinary skill in the art at the time of the invention.

The rejection made under 35 USC 103 is adhered to.

Claims 1, 2, 7, 10, 15, 16, 18 and 23-37 are not allowed.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing

date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
